

FOR IMMEDIATE RELEASE

Entelligence Joins AWS to Address Critical Public Sector Projects

HOUSTON, Texas, July 31, 2020 — Entelligence, a value-added services provider of advanced cloud solutions and services for global IT leaders and their enterprise customers, is honored to announce it is now a part of the Amazon Web Services (AWS) Partner Network (APN) Public Sector Partner Program.

As an APN Authorized Public Sector Partner, Entelligence will be able to promote and deliver advanced cloud technology and solutions for AWS and its partners focused on government clients and projects. AWS recognized Entelligence’s 23-year track record of delivering predictable value to clients and its continuous investment in the solutions, people and programs that will drive AWS product adoption among public sector customers.

“Being recognized by the APN Public Sector Partner Program is a key element of our mission and growth objective in the public sector. With AWS, Entelligence will help even more federal government agencies and organizations realize the full benefit of moving to the cloud,” said Stephen R. Satterwhite, CEO and Founder of Entelligence.

Entelligence delivers a complete range for cloud solutions and services from cloud infrastructure and data migration to cloud-based application development and analytical solutions for federal civilian, U.S. Department of Defense and intelligence community organizations, as well as for major state and local governments.

“Our AWS team understands the reality of delivering AWS cloud solutions in complex IT environments supporting government operations. That’s why Entelligence deploys experienced consultants who have an in-depth knowledge of AWS technology and supports our partner’s strategic and tactical priorities for their customers,” said Haley Arndt, VP and Partner, Global Customer Success for AWS at Entelligence.
